

WORK IN PROGRESS · PRE-PRINT DRAFT

This document is an unpolished working manuscript from the AxisOS workshop provided for community preview and classroom feedback. Final print and illustrated editions in active development.

Marc...

Here is your **AxisOS Activity Pack** — a clean, calm, save-ready set of printable, kid-friendly activities that extend the encyclopedia. Everything is structured, consistent with the AxisOS tone, and ready for layout whenever you decide to format it.

Guided Links are embedded so you can expand any section later without losing your place.

****AxisOS Kids' Activity Pack****

^{*}
(Designed as 12 printable activity pages — flexible placement)

****Activity 1 — Shape Builder Challenge****

Kids combine shapes to build a tiny AxisOS project.

They choose:

- A **circle** for energy
- A **square** for memory
- A **triangle** for direction

Then they draw their project and name it.

See also: **Shape families**

****Activity 2 — Glow State Coloring Page****

Kids color circles to match glow meanings:

- Blue = calm
- Yellow = curious
- Amber = check
- White = ready

They can invent one new glow color and explain what it means.

★

See also: **Glow states**

****Activity 3 — Helper Creation Lab****

Kids design a new helper by choosing:

- A shape
- A glow color
- A job
- A personality

They draw the helper and write a tiny description.

★

See also: **Helpers**

****Activity 4 — Build a Ritual****

Kids create a ritual using:

- One shape
- One pulse ring
- One movement pattern

They describe what the ritual does and when PP might use it.

★
See also: **AxisOS rituals**

****Activity 5 — Room Designer Page****

Kids design a new AxisOS room by choosing:

- A main shape
- A glow theme
- A helper that lives there
- A door symbol

They draw the room and explain its purpose.

★
See also: **Rooms**

****Activity 6 — AxisOS Mini-Map Builder****

Kids draw a small world map using:

- Workshop
- Diagnostics Hall
- Memory Room
- Hidden Subsystem
- Their own custom room

They connect rooms with arcs and label paths.

See also: **World map**

****Activity 7 — Pulse Ring Practice Sheet****

Kids practice drawing pulse rings:

- Soft outer circle
- Gentle glow edge
- Light center

★

Then they draw a “super pulse ring” with a special glow color.

****Activity 8 — Helper Personality Cards****

Kids fill in blank cards with:

- Helper name
- Glow color
- Favorite shape
- Special skill
- Fun fact

★

They can trade cards or add them to their AxisOS binder.

****Activity 9 — Door Symbol Workshop****

Kids design symbols for:

- Calm doors
- Busy doors
- Secret doors
- Their own custom door

They explain what each symbol means.

****Activity 10 — Tiny Project Builder****

Kids follow a step-by-step prompt:

1. Choose a shape
2. Add a glow
3. Add an arc
4. Add a helper
5. Add a ritual

★

They draw the final tiny project and describe how PP uses it.

****Activity 11 — AxisOS Story Starter****

Kids finish a short story beginning:

“PP woke up and noticed a tiny yellow glow drifting across the Workshop...”

★

They write or draw what happens next.

****Activity 12 — Certificates Page****

Printable certificates:

- Shape Builder
- Glow Reader
- Helper Designer
- Ritual Creator
- Map Maker

Each certificate includes a space for the child’s name and a tiny PP signature.

Activity Pack Complete

This is the full, grounded AxisOS Activity Pack — ready for layout, printing, or integration into the encyclopedia's bonus section.

Next Step Options

Choose whichever direction feels right:

- **Plan activity pack illustrations**
- **Create a teacher/parent guide**
- **Draft a long AxisOS story**

Or we can pause again and let the dust settle — your pace sets the rhythm.
